PROFESSIONAL SUMMARY

Design leader with 13+ years across fintech, enterprise SaaS and e-commerce. I lead product design strategy, build and govern design systems, and turn complex enterprise workflows into products people trust. I partner closely with C-level stakeholders, mentor designers, and use applied AI (GenAI and agentic tools) every day to research, prototype and ship faster.

CAREER HIGHLIGHTS

- Cut design rework by **60%** by building and governing a Figma design system across 15+ modules for a platform serving 50+ financial institutions.
- Reduced post-launch UX issues by **40%** by introducing design QA and governance into the release process.
- Raised first-time completion of merchant onboarding by **60%** through a redesigned, guided flow.
- Took 4 industrial products from zero to launch at Enlite Research, reducing onboarding friction for new operators by **40%**.
- Champion of the Quarter (Q1 FY 2024–25) and Team of the Quarter (Q3 FY 2023–24) at FSS; multiple Kaizen Awards at Amazon.

CORE COMPETENCIES

Product Design & UX Strategy · Design Systems & DesignOps · Design Governance & QA · User Research & Usability Testing · Journey Mapping & Information Architecture · Enterprise & SaaS Design · Mobile & Web UX · Accessibility (WCAG) · AI-assisted Design & Prototyping · GenAI & Agentic Workflows · Stakeholder Management · Cross-functional Leadership · Data-driven Design

TOOLS

- **Design:** Figma, Adobe Creative Cloud, Canva
- **AI:** Claude (Design, Cowork, Code), ChatGPT, Lovable, Antigravity, Figma AI
- **Automation:** n8n, Make
- **Methods:** Design Thinking, Agile/Scrum, A/B Testing, Prototyping, Wireframing, Usability Testing, Design QA

EXPERIENCE

Lead UI/UX Designer | Financial Software & Systems (FSS), Bengaluru — Oct 2022 – Present

- Lead end-to-end UX for six enterprise fintech products used by 50+ financial institutions: Card Issuance, Merchant Onboarding, Customer Onboarding, Reports, Payment Gateway and Settlement.
- Built and govern the shared Figma design system across 15+ modules, cutting design rework by **60%**.
- Set up design QA and governance, reducing post-launch UX issues by **40%**.
- Redesigned merchant onboarding into a guided flow, raising first-time completion by **60%**.
- Run user research, usability testing and design thinking workshops with product, engineering and leadership to align roadmaps.
- Lead a team of 3 and mentor 2–3 junior designers.

Lead UI/UX Designer | Enlite Research, Mumbai — May 2021 – Oct 2022

- Designed 4 products from 0 to 1 as the first design lead: Asset Management, Maintenance, Operator Mobile App, and Alarms & Notifications.
- Set up design processes, workflows and quality standards, and partnered with founders to turn business needs into clear user experiences.
- Ran interviews, journey mapping and competitive analysis, and built personas that shaped product strategy.
- Introduced iterative design and continuous usability testing, reducing onboarding friction for new operators by **40%**.

Lead UI/UX Designer | Dun & Bradstreet Technologies, Chennai — Nov 2020 – Apr 2021

- Led design for an enterprise data analytics platform, owning the lifecycle from concept to developer handoff across complex B2B workflows.
- Presented design decisions to executive stakeholders and set the design guidelines that became the team’s design system.
- Mentored junior designers on UX methods, design thinking and stakeholder communication.

Senior UI/UX Designer | Dun & Bradstreet Technologies, Chennai — Apr 2018 – Nov 2020

- Designed enterprise SaaS experiences, from user flows to high-fidelity prototypes, making dense data visualisation readable.
- Ran usability testing and workflow optimisation, and contributed to the Figma component library.

Senior Image Specialist / Image Specialist | Amazon, Chennai — Oct 2012 – Mar 2018

- Managed large-volume image production and quality control for Amazon product catalogues; improved throughput and consistency, earning Kaizen Awards (2016–2017).

Graphic Designer | Freelance — May 2012 – Oct 2012

- Created corporate identity, marketing collateral and digital assets for small businesses.

SELECTED SIDE PROJECTS

- **SprintMart** (mobile, quick commerce): groceries for the whole household. A shared group cart with roles and a kid-safe view, an AI assistant you can order from in plain language, and clear recovery when items sell out or payments fail. 142 screens.
- **PawTrail** (iOS, pet care): book dog walks, treks and swims, then follow along with live GPS, geofenced safe zones and a walk report card. 30+ screens.
- **SubTrack** (iOS, fintech): every subscription in one place. Auto-detects subscriptions from bank, email or SMS, sends renewal alerts a week ahead, and makes cancelling take two taps. 20 screens.
- **PawSafe** (mobile, social impact): report a dog in need, follow the rescue, find shelters and apply to adopt, with donations and volunteering built in. 40 screens.
- **NO Q Now** · **Ongoing** (mobile, services marketplace): book appointments with salons, spas, dentists, lawyers and more, and skip the queue. 70+ screens.
- **Curb** · **Ongoing** (mobile, fintech): a credit card spending companion grounded in research on how people track recurring spend; currently in research synthesis and interaction design.
- **Earlier work:** Mass IT (responsive e-commerce, product discovery and conversion) and Chennai Fitness (health and fitness web platform).

EDUCATION

Master of Science, Visual Communication | SRM University, Chennai — 2010 – 2012

Bachelor of Science, Visual Communication | Alpha Arts & Science College, Chennai — 2007 – 2010

CERTIFICATIONS

- GenAI & Agentic AI for UI/UX, IIT Pravartak (in progress, 2026)
- Mobile & Web UI Essentials, Zeolearn
